Public notification for EIA consideration statement - Pacifico Energy Minami-Izu Offshore Wind Power Project

Tokyo, Japan - Pacifico Energy K.K. (“Pacifico”) has started the public notification for the consideration statement for Pacifico Energy Minami-Izu Offshore Wind Power Project (“Minami-Izu Offshore Wind”) pursuant to the Environmental Impact Assessment Law. This consideration statement will be made available for public review at the related administrative agencies and posted on Pacifico’s website.

Pacifico has been developing multiple offshore wind power projects in Japan since 2018. As a leading renewable energy project developer, Pacifico will continue excellent track record and build renewable power plants leveraging accumulated know-how and experience gained through developing, constructing, and operating utility scale renewable power plants in Japan.

Please find the details regarding Minami-Izu Offshore Wind’s public release of the EIA consideration statement. Please note that the EIA consideration statement is only available in Japanese.
